A dedicated and detail-oriented **Software Tester** with **3 years** of experience in **manual and automation testing**. Proficient in **Java and Python**, with a strong grasp of **SDLC, STLC, and Agile methodologies**. Skilled in designing and executing **test cases, defect reports, and automation frameworks** to ensure high-quality software products. Experienced in using **Selenium, JIRA, and API testing tools** like **POSTMAN** to enhance testing efficiency. Adept at collaborating with cross-functional teams to drive seamless software delivery.

## Work Experience

Infosys Limited - Jaipur

Systems Engineer (Feb 2022 – Current)

Roles & Responsibilities:

- Ensured **software reliability** and compliance with business requirements as a **Quality Assurance Tester**.
- Collaborated with **cross-functional teams** in **Agile environments**, actively participating in **daily scrums** to discuss progress, challenges, and solutions.
- Conducted **Functional, Regression, and UI testing** on web applications, identifying and documenting defects throughout the **development lifecycle**.
- Prepared **detailed Test Reports and Defect Summaries** to help stakeholders make informed decisions and improve software quality.
- Developed and executed automated test scripts using Selenium with Java, integrating TestNG.

**Project: Payment Processing & Compliance – American Express (Client: Infosys)**

- Conducted **Functional and Regression testing** for new and existing features.
- Created **Test Scenarios, Test Cases, and Test Scripts** for critical financial applications.
- Managed **Defect lifecycle and Reporting** using JIRA and coordinated with business teams.
- Participated in **triage calls with technology & operations** to resolve issues.

**Achievements:**

- Conducted **peer reviews** and optimized test case execution, reducing defect turnaround time.
- Suggested and implemented **automation scripts** for repetitive test cases, saving 20% testing effort.

## Technical Skills

**Testing Techniques:** Functional, Regression, End-to-End (E2E), UAT, RBT

**Automation Tools:** Selenium using Java/Python, Postman (API Testing)

**Database Validation:** SQL Queries

**Programming Languages:** Java, Python, MySQL

**Software Development Lifecycle:** SDLC, STLC, Defect Life Cycle, Agile Methodology, Scrum

**Test Management Tools:** JIRA (Defect Tracking, Agile Sprint Planning), Agile Central

## Education

**Master of Computer Applications (MCA)**

University of Mysore, Mysore, India

Apr 2022 – Apr 2024

**Bachelor of Computer Applications (BCA)**

University of Allahabad, Prayagraj, India

Jul 2018 – Sep 2021

## Certifications

- Udemy - Selenium WebDriver with Python + Framework
- Google IT Automation with Python

## Languages

- English
- Hindi
